Report of suspicious activity in Tame Road from the Coop to Perry Hill.

As a student was walking up Tame Road he noticed a car [light blue Audi (older A3)] with three men and a woman (in their 20's). The car drove past him again, pulled in and stopped at the top of Forest Road, the route the student would normally take. As the student was concerned, he continued walking down Perry Hill where he met other pupils that he knew, and he joined them to walk down Forest Road with them.

A man got out of the car and was on his phone but when he saw that the student was with others, he got back in the car. The student heard the driver say "there's no point anymore".

Description: three males, one described as mixed race, approx. 5'8" tall, slim build with longish hair and wearing a headband, he was wearing a dark blue zipped hoody with white toggles and black bottoms. The driver was white with short brown hair. The woman had Ombre hair, blonde to brown, and was wearing a white tracksuit. The fourth male was not clearly visible.
